Construction Trailer Checklist

Instructions: Please submit the following information along with copies of the General Contractors information (State Card/ID/Business Licenses)

- Three copies of a site plan indicating the proposed location for the temporary trailer, including distances from lot lines. The location of portable toilet facilities, refuse containers and any storage/cargo containers must also be shown on the site plan.
- Three copies of the electrical installation plans for the temporary trailer, including the type and size of conduit being installed, the type and size of wires being installed, the amperage rating for the electrical service in the temporary trailer, and the grounding details for the electrical service for the trailer. If electrical service lines will be routed overhead, information specifying the height of the wire and specifications on the poles to be used must also be provided.
- Three copies of the trailer manufacturer's anchoring recommendations and details.
- A copy of the electrician's license is to be submitted. (if applicable)
- A copy of the plumbing contractor's license and plumber's license is to be submitted, if plumbing work is to be done. (if applicable)
- If the trailer will be connected to the sanitary sewer and/or public water systems, details regarding the size, type and location of pipes and connections will be required. (if applicable)
- For residential project sales trailers, a parking lot layout and landscape plan must also be submitted. Separate permits are required for the parking lot construction as well as for any signage
