

# **FISCAL YEAR 2025** January 1, 2025 – December 31, 2025

October 30, 2024

City Council City of Stonecrest 3120 Stonecrest Blvd. Stonecrest, GA 30038

Dear Mayor and City Council:

The proposed budget—which projects revenues and expenditures for the period beginning January 1, 2025 through December 31, 2025—is \$17.6 million for the operating budget and a capital projects budget of \$11.5 million. The departmental requests include increases for additional educational training, education, operating supplies, and additional computer replacements. There are four personnel requests: administrative assistant – community development, arborist – community development and parks, reclassification of zoning administration technician to zoning administrator, and reclassification of accountant to budget analyst. With the implementation of Tyler Technologies, City staff will continue to be trained on the system's capabilities. The community development module implementation is scheduled for the summer of 2025. The remainder of this document provides summaries of the departmental requests.

### Mayor-Council

The Mayor and City Council have numerous initiatives they would like to accomplish in the FY25 budget year. Additional funding has been allocated to the council's travel budget to assist with increased fees related to training, functions and events they are seeking to attend. The FY25 budget reflects an increase in district travel accounts, as well as an increase in the travel expense line for the Mayor and City Council. There is also an increase in the council initiative line to ensure council has the appropriate funding level to engage with citizens in their respective districts.

#### City Manager

The City Manager's office will implement plan management software to be able to provide a public view of all the plans in the City of Stonecrest. These plans are centered around economic development, film and entertainment, the comprehensive plan, the parks masterplan, the transportation plan, the bicycle/pedestrian/trail, and the capital improvement program which are the catalyst to creating the foundation for expanding experiences and moving along the road to success. This software will provide status updates of the items that have been identified as recommendations to the City for implementation. The community engagement position is being moved to the Parks department. Our goal is to have this position directly connected with citizens and the appropriate resources they seek. This position is essential in the implementation of other programs that have been identified by the City Manager and the parks director. The Citizens Academy will be funded from the City Manager's budget for 2025. The City Manager will be working with the Mayor's office to work toward the establishment of a Stonecrest Zip Code.

### **Communications**

With the reorganization and removal of the IT department from communication in 2023, the Communications team will continue to focus on marketing, branding and promoting the City of Stonecrest while also providing production services to our various meetings, events and town halls. The department received funding for additional staff positions: content creator, marketing/social media specialist, and a part-time audio-video tech. As of today, the department is fully staffed and continues to implement new tools to market, brand and promote the city. Everyone will begin to see and hear the great things that the city is doing. Funding was increased in this department to reflect the creation of a City Magazine to increase marketing efforts, and to enhance professional services to ensure the best audio video experience in-person and online. The Communications Department will also create tourism, marketing, and new employee orientation videos for the city, as well as increase our social media following by increasing marketing for all major city events.

#### **Finance**

The Finance Department implemented Tyler Technologies for the City's enterprise resource planning software system. The department will focus on training staff on the new ERP solution. The department's goal is to have all vendors set up with EFT payments in FY2025.

As a highly functioning department, they will focus on hiring well-qualified applicants to fill the remaining vacant positions. There is currently an active recruitment for a Finance Director. Recently hired positions included the following: deputy finance director, accountant, and purchasing coordinator. The enterprise resource planning software system will be the foundation of improved efficiency for City staff to produce expected reports, assist with forecasting, and make data driven decisions while being fiscally responsible. The proposed budget has increased funding in professional services for the accounting and audit services that are needed. There is a request for reclassification of one (1) of the accountant positions to a budget analyst position.

The department will work with Information Technology (IT) and Tyler Technologies to go live with the financial transparency software, OpenGov. In an effort to enhance the business experience, the revenue division is introducing online payment options for hotel/motel, liquor by the drink and wholesale in January 2025. Once a grant administrator has been hired, they will be primarily responsible for identifying and managing grant applications and fund allocations.

### Information Technology

Funding was allocated to perform a hybrid of outsourcing and in-house operations. The allocation included funding for an IT Manager and the creation of a Systems Analyst and Helpdesk Analyst position. These positions will not be funded and instead the professional services line item in this area will reflect the contract for Information Technology and GIS. The budget will also reflect funding for additional computer replacement and additional equipment for anticipated new staff for the remainder of 2024 through 2025. The IT Department will also provide support to the departments by assisting with the implementation of financial transparency software (Opengov), work order and asset management system (SeeClickFix) and a community development upgrade to Tyler Technologies in the summer of 2025. This support function is also proposing to implement Cisco Umbrella by providing a robust layer of security by blocking access to malicious domains before a connection is established. This will assist in reducing the risk of cyber threats such as malware, ransomware, and phishing attacks. While operating as a cloudbased solution, this will ensure comprehensive protection across all devices, whether it's on or off the City's network. The Cisco Umbrella software will also enhance visibility and control over internet activity, allowing for faster threat detection and response, ultimately safeguarding the organization's digital assets while simplifying security management.

#### Human Resources (HR)

The Human Resources Department will continue to provide elevated staff appreciation experience and training. They planned a professional development service day that culminated with the presentation of the City's first Sunflower Service Award. This inaugural year award was presented to Myrlene Thomas, Human Resources Analyst. The HR department successfully implemented the Tyler Technologies ERS payroll and Time and Attendance systems. With the addition of a HR analyst, the department will be expanding the internal training programs offered to staff. As we continue to ensure that we have the workforce that will help move the city down the road to success. HR will continue to focus on retention efforts, with talent development, expanded training opportunities and increasing employee engagement. The department will also roll out an electronic performance management process. The HR Department has also reviewed the current personnel policy and will make recommendations to the council in the coming months. The department consistently advises supervisors and employees on policies, procedures, practices, benefits and other employment related matters. For the second year in a row, the department has applied to and awarded a grant to fund employee health and wellness efforts. The City's Health and Wellness Center is scheduled to open and be available to all City staff in January 2025.

### Engineering

Engineering, SPLOST/Capital Management and Augmentation of Right of Way Maintenance were recorded in this department for FY24 through contracted services. The City will continue to outsource the augmentation of Right of Way Maintenance and Engineering services in FY25. The hiring of a Capital Projects Manager and Site Inspector reduces the demand for contracted services for these services. This support function will continue to coordinate transportation and intersection projects, parks projects, and serve as a liaison to DeKalb County Public Works. The professional services line is funded to support the City's desire for beautification efforts.

#### **Economic Development**

The Economic Development Plan was approved by the Mayor and City Council. This plan will serve as a road map that will guide strategy for intentional and culturally sustainable economic growth for the city. The Economic Development Director will continue to work on

a plan that will outline the execution of the strategy. The department is now fully staffed with the addition of a Business Development Manager position. The department has facilitated several think tanks and town halls with various business leaders in the community to discuss the City's plan to promote and create a more defined tourism brand. In partnership with Discover Dekalb and Experience Georgia. With the recent revamping of the landing page for economic development, we are excited to offer useful tools to educate citizens and businesses looking for data related to the area and a new economic development page. Since the council approved the incorporation of the Film and Entertainment Commission under the Stonecrest Development Authority and the approval of the City's comprehensive plan update, there has been more interest in the City's entertainment district. With the recently hired staff, the department will be able to contact businesses to assist them with their needs. The department will also create a small business series next year as a part of the business retention and expansion goals. The department will continue to focus on retaining and growing of our economic drivers and support efforts to enable Stonecrest's employers to cultivate, retrain and attract the needed talent. This will elevate engagement in the national and international arena and build our Stonecrest's tourism brand.

### **Municipal Court**

The Municipal Court will continue its citizen engagement opportunities such as the Municipal Court Clerk's webinar, Criminal Justice town halls, online training and educational programs. As a 2024 GCCA exemplary Service award recipient, the municipal court office is working towards the implementation of a new court software. The Municipal Court has connected with offenders, other local and state agencies to provide a platform to exchange valuable information and/or training. The FY25 budget reflects an increase in travel, education and training to provide funding resources to support staff and the judges' training. There is also an increase to the professional services, solicitor and public defender line items. A new marketing/advertising line was added for the publications that are essential for the public.

### Parks

The Capital Improvement Program (CIP) and American Rescue Plan Act (ARPA) funding have been able to assist the Parks Department with aging infrastructure. The Parks Department has increased community involvement in activities at Browns Mill Recreation Center and anticipating additional recreation programs and activities to increase the use of the facility. In FY24, the Parks Department presented many City events that were very successful, and they have planned a great FY25 of events, including a new series of "Screen on the Green." They will also have other pop-up events at all the park locations throughout the next year. Renovations to Salem Park (basketball court and parking lot), resurfacing of tennis/pickleball courts, the installation of some shade structures, the design and construction of a 1.5-mile trail (with the assistance of a grant), installation of a community garden at Browns Mill, roof replacement of Browns Mill. At this time, the grounds crew has been able to maintain the parks with the purchase of various equipment. The proposed budget includes funding for the development of leagues, additional field supplies, new program ideas for summer camp and school break camps. There will be an increase in operational funding for equipment leases, operating supplies, and parks beautification.

### Planning & Zoning

In FY24, the Mayor and City Council adopted the 2038 Stonecrest Comprehensive plan update. Through a combined request from the Parks and Planning and Zoning departments, a request for a full-time arborist has been made for the 2025 budget. This position will be responsible for assisting land development with tree recompense, annual review of tree canopy and other activities. This position will also assist with the design, buildout and ongoing operations of the various flora that exist and those to be installed at the Botanical Garden. With the ongoing efforts to create a sense of place for the City of Stonecrest, the department will focus on updating zoning and overlay district ordinances to reflect the density desired for future developments. Another department goal is to establish a historic preservation commission to develop historic guidelines for historic resources.

### Code Enforcement

Code Enforcement will focus on educating the public on the importance of City codes and the need to consider the impact it has on the surrounding neighborhoods. Code Enforcement will utilize additional staff to assist the revenue division with licensing and permit concerns. This department will also be taking part in the Tyler Implementation of the Community Development module in 2025. With the increase requests for travel and education/training line items, the department will focus on training, recruitment, and retention efforts of the City's code enforcement officers. In FY2025, Code Enforcement will continue to develop data driven metrics to assist with proactive code enforcement, including nights and weekend scheduling. In FY24, another position was approved during a requested budget adjustment. This additional position is fully funded in FY25 and once filled, this department will be fully staffed.

#### Public Safety Department

The FY24 budget established the Public Safety Director position. The City is in the hiring process for this highly anticipated position. The goal is to have a person in place before the end of 2024. This will aid in improved service delivery under our Intergovernmental agreement and provide more efficient and coordinated efforts with all lines of public safety on the county, state and federal levels. The department will collaborate with all City departments to ensure the City creates a safe environment for all staff, residents, and all those who visit our city. This department will have administrative support from the City Manager's office.

#### **Building**

With the newly hired Chief Building Official and Building Inspector, the department is now fully staffed. The department is focusing on cross training opportunities to increase efficiencies in the Community Development Division. The department will add metrics to the permitting process to also assist with operational measures and continue to promote a development-friendly environment for residents and businesses. The Building Department will also be a part of the Tyler implementation for Community Development in the Spring of 2025. The department will continue to review code and policies/procedures to ensure that the City is business friendly without compromising the efficiency of development, not only for our residents, but for our stakeholders and visitors.

### Capital Improvement Program (CIP)

The capital improvement budget provides a multiyear plan that includes funding of various parks projects, transportation and intersections projects, sidewalks, pedestrian crossings, street resurfacing, and future city hall/ city center plans. The FY25 projects for SPLOST/CIP are attached in this document. The projects proposed for this budget year include transportation improvements, freight cluster projects, intersection improvements, parks improvements and construction, field upgrades, parking lots additions/expansions, sidewalks, road repaving in addition to gateway monuments, bridge and streetscaping and wayfinding signage. The overall goal for the parks projects is to bring all the City's current parks up to the Stonecrest standard. Parks CIP projects include complete renovations:

parking lot resurfacing, installation of playground equipment, repair and installation of irrigation, repair and installation of improved field conditions, repair and installation of new parking lots, additional basketball and pickleball locations, lighting upgrades, restroom and fieldhouse renovations and construction.

### **Conclusion**

The budget presented continues to focus on laying the foundation for the Road to Success. This budget illustrates the desire to focus on the community, including our own employees. Funding and focusing on strategies to retrain, train and develop employees remain a high priority. Research continues to show the decline in students and experienced professionals wanting to seek employment with local governments. The City Manager's office and the executive leadership team will be exploring additional opportunities to collaborate with local educational and training programs for a skilled workforce for our businesses, and we will take an opportunity to do the same for the City's workforce. We will also focus on safety, beautification, and economic development initiatives to create the environment that others want to be a part of to live, work and visit. The public safety director will have to show up "Day One Ready" to be able to assist the City with the various concerns residents have. All City departments will be working with the communications teams to provide content to show the great work that is going on in the City. Stonecrest continues to move forward with dedicated department directors working together with their staff to help build the foundation to move this City on the Road to Success. They will continue to provide improved customer service interactions and create efficient operations within their respective departments. There has been a significant emphasis on street resurfacing in the past three years, the City's roads are much improved and in the future years, you will see less funding in the capital projects budget. The funding is being shifted to projects like the botanical garden, city center, and other transportation projects. These are truly, the "Road to Success". If additional information would be beneficial in preparation for the public hearing or the council meeting, please contact me.

Respectfully,

Gia R. Scruggs, City Manager
