- Completed Application (with all relevant information to your case).
- Survey Plat of the subject property in accordance with the attached site plan checklist.
- Signed and notarized affidavits of all property owners.

- Written legal description which includes a narrative of the metes and bounds of the property.
- Relevant Site Photos.
- Letter of Intent for Zoning Variances/Special Exceptions (Chapter 27):** Please describe your situation and **how** your variance request is a result of **all** the following conditions:
 - 1) By reason of exceptional narrowness, shallowness, or shape of a specific lot, or by reason of exceptional topographic conditions, which were not created by the owner or applicant, the strict application of the requirements of this Chapter would deprive the property owner of rights and privileges enjoyed by other property owners in the same zoning district;
 - 2) The requested variance does not go beyond the minimum necessary to afford relief, and does not constitute a grant of special privilege inconsistent with the limitations upon other properties in the zoning district in which the subject property is located;
 - 3) The grant of the variance will not be materially detrimental to the public welfare or injurious to the property or improvements in the zoning district in which the subject property is located;
 - 4) The literal interpretation and strict application of the applicable provisions or requirements of this Chapter would cause undue and unnecessary hardship; not merely impose a casual/discretionary inconvenience upon the applicant or his assigns; and
 - 5) The requested variance would be consistent with the spirit and purpose of this Chapter and the City of Stonecrest Comprehensive Plan text.
- Letter of Intent for Sign Variances (Chapter 21):** Please describe your situation and how your variance request is a result of all the following conditions:
 - 1) Exceptional conditions pertaining to the property where the sign is to be located as a result of its size, shape, or topography, which are not applicable to other lands or structures in the area;
 - 2) Granting the variance would not confer on the applicant any significant privileges which are denied to others similarly situated;
 - 3) The exceptional circumstances are not the result of action by the applicant;
 - 4) The requested variance is the minimum variance necessary to allow the applicant to enjoy the rights

commonly enjoyed by others similarly situated;

3120 Stonecrest Blvd. • Stonecrest, Georgia 30038 • (770) 224-0200 • www.stonecrestga.gov

- 5) Granting the variance would not violate more than one (1) standard of this article; and
- 6) Granting the variance would not result in allowing a sign that interferes with road or highway visibility or obstructs or otherwise interferes with the safe and orderly movement of traffic.

Sign variances shall be limited to the minimum relief necessary to overcome the hardship. No variances shall be granted to allow an increase in height of a sign greater than twenty (20) percent of that allowed by the Sign Ordinance; to increase the aggregate area of signs beyond what is permitted; to increase the size of a sign greater than twenty (20) percent of that allowed by the Sign Ordinance; and to increase the size or height of a banner or standard informational sign.

- Letter of Intent for Stream Buffer Variances (Chapter 14):** Please describe the adverse, material hardship should the buffer be maintained and address the following considerations:
- 1) The shape, size, topography, slope, soils, vegetation and other physical characteristics of the parcel;
 - 2) The locations of all streams on the parcel, including along parcel boundaries and within adjacent parcels;
 - 3) The location and extent of the proposed buffer or setback intrusion;
 - 4) Whether alternative designs are possible which require less intrusion or no intrusion;
 - 5) The water-quality impacts of the proposed variance; and
 - 6) Whether the proposed mitigation compensates for the lost buffer or setback functions and otherwise maintains the function of the required buffer or setback at the same site where the impact will occur and provides at least the same protection of the water as provided by the natural features to be disturbed or removed.

No stream buffer variance shall be granted allowing encroachment into the buffer area that is closer than thirty-five (35) feet from the stream channel unless either (i) the encroachment is (A) necessary because of a circumstance constituting force majeure, or (B) for any rehabilitation or reconstruction by a parcel owner of an impervious cover existing within the buffer described in Sec. 14-153(a); or, (ii) the State of Georgia grants the parcel owner a permit to encroach into the 25 foot state stream buffer area.
